

BIG CAMPS OF GILA ACTIVE

Both at Globe and Miami Mining Is Being Carried on Vigorously; Work on the New Inspiration Smelter

M. Bernheim was numbered among returning passengers last evening from Globe and Miami, where he went several days ago on matters connected with the Calumet & Arizona Mining company. In speaking of the conditions at Globe Mr. Bernheim stated that both mining camps were scenes of much activity, while at Miami the Kansas City Structural Steel company has practically completed the machine shop at the smelter site of the International Smelting and Refining company's property. Riveting the steel work is now in progress and the corrugated sheathing will be put in place in the next few days. Forms for concrete foundations for the warehouse are now being built, and within a short time all concrete work should be well under way. Electrical engineers are now busy with the power house plans. The American Bridge Company was compelled to suspend operations on account of the heavy rains, which have been falling during the past week. Considerable steel is now being put in place at the main shafts of the new concentrator, but erection of this structure has been suspended until such time as the balance of the steel has been received. When the new concentrator of the Inspiration Copper company has been completed, it is estimated that that institution will handle all the way from 7000 to 7500 tons of ore per day, while it is said that the new smelter of the International Smelting and Refining company, now under construction, will handle 4200 tons every twenty-four hours when completed.

Cleaner Clothes--Less Labor

WHY make wash day a dreaded drudge, rubbing dirt and grime out of soiled clothes, when Hydrax Pure will do this work for you? Use less soap but add a little Hydrax Pure. Roll or scrub as you like. The dirt will come out with almost no effort.

TELLS OF BIG STORM ON COAST

Arrival Says That Transportation Lines Are Creeping Open; First Traffic to Reach Here Since Saturday

W. C. Miller, representing the International Typewriting Machine Co., arrived in the city last evening from Los Angeles, being one of several passengers delayed in departure from that city since Friday of last week.

Mr. Miller came out on the first train to be sent east over the S. P. lines after the flood damage, which reached its climax on Friday night.

"It took us just six hours to make the run from Los Angeles to Colton," said Mr. Miller last night. "The distance is a little less than 60 miles. All the way we had track trouble. A good part of the run was over temporary construction, thrown down until repair of the washed-out road bed can be made. The condition of the railroad line gave us an idea of what must have occurred in the way of damage back from it. I saw fruit groves along the foothills. Fruit groves undoubtedly suffered very heavy losses in the gutting of their groves by flood streams, which poured everywhere. Aside from this loss there is further loss to be reckoned with through spoiled fruit on the trees. The orange picking season was at its height and much fruit needed to come down immediately in order to pack to advantage. The water in the groves prevented picking, and will do so for some days to come."

"On the other hand, the 22 inches of rain that have been had for the season, as compared with 9 inches for the entire season of 1913-14 will accomplish a world of good in making hay, grain, beet and summer and fall fruit. The rain will doubtless be much more than the loss that has been sustained by orange growers and through the destruction of road, railroad and street railway bridges during the tremendous downpour of rain and the accompanying torrents which found their way through new channels cut from the overflowing streams."

The train arriving last night from the west brought an immense amount of mail and express, the accumulation of three days. It occasioned long hours for post office folks, who will not get all of the extra mail cleared away until sometime this morning.

INTEREST IN THE WOMAN'S CONTEST

Their Bowling Tournament to Close on Next Saturday Night; How They Stand

Quite a little interest is being taken as to who will win in the Lady's Bowling Tournament on next Saturday evening when the Tournament closes.

Mrs. John Scott still retains her place at the head of the list of Class No. 2. The most noticeable change in the standing of the contestants was made by Mrs. Tomkins on the Alleys on Saturday afternoon, bringing her average from the fourth place up to the second place, and also bowling the high game of the Tournament to date. Score being 179.

The standing of the ladies with the highest averages are as follows:

CLASS NO. 2

Mrs. Scott 98

Mrs. Tomkins 92

Mrs. Studley 85

Mrs. Watson 84

Mrs. Scott 79

CLASS NO. 1

Mrs. Verfurth 137

Mrs. McKeehan 169

Mrs. Smock 108

TANGO ARTISTS ARE BOOKED AT ORPHEUM

Harris and Harris, two of the best known tango dancers of the Pacific coast, have been booked to show at the Orpheum for one week, beginning Thursday night. With the engagement to see the very best dancing possible to obtain, on the stage or in the ball room.

For the past five weeks Harris and Harris have been in Arizona. About the time the tango craze was at its zenith on the coast, a contest of tango dancers was held in San Francisco. Harris and Harris competed in the contest and came second in the final award. From San Francisco the team came to Los Angeles and again proved their worth.

A. H. Reeves of Phoenix secured their services for his theaters in Phoenix and Globe and gave them a return engagement at his musical comedy house in the capital.

Their performance includes some of the most fascinating dancing known to the public today. They feature, of course, the tango. They give an exhibition of the Argentine tango and also of the American tango. They also give the hesitation waltz and the Texas Tommy.

The showing in the other towns of Arizona, where the team has been, has proven that the two were absolutely the best dancers who ever made this section. Their presentation of the dances is wonderful in the extreme.

Many people of the Warren district have never seen the tango or the hesitation waltz. They have, however, read a great deal about it in every paper of the land. Harris and Harris will give them an opportunity to see the real thing at the Orpheum.

With the installation last night of a new curtain, known as the Amber Five Rest screen, the Orpheum attained the highest perfection in moving picture house picture presentation equipment that has yet come to Arizona. The new screen was put in at a cost of nearly \$1,000 and is the only one of its kind in use outside the largest cities in the country. There is none other in Arizona.

With the new screen in service, patrons of the Orpheum get the very best from the pictures presented that it is possible for science at this time to enable. There is also afforded the spectator entire relief from the objectionable features so often in moving pictures by reason of unpleasant effect on the eyes.
